Phone: +91-9618252937

Objective: To work in a well reputed company where my capabilities are enhanced and can contribute to the success of organization.

About Myself: I am a person with positive attitude, self-confidence and quick learner. I consider myself as sociable and a flavor to do work in any atmosphere.

Education:

- Studying 4th year Bachelor of technology (CSE) in Mahatma Gandhi Institute of Technology, Hyderabad with current aggregate of 70.4 %.
- Intermediate in Sri Chaitanya Junior Kalasala, Hyderabad with 94.4%.
- SSC in Brilliant Grammar High School, Hyderabad with 81.83%.

Mini Project Accomplished:

"Life Saver" using Java script & SQL database, this is used for searching for required blood group, maintaining an emergency request on homepage and details of donors and nearest blood bank details.

Now fully loaded web page with major menu items listed in main page such as - Home, Donor's login, Blood banks, FAQ, Why to donate blood, Administrator login, this is supported in back end by SQL database

Major project:

Currently working on "Cloud Armor - Supporting Reputation based Trust Management for Cloud Services" using below software tools

- Operating system –Windows 7
- Technologies used-html, jsp
- Database – MySQL

Cloud computing is encountered by several challenges such as privacy, security, availability and most important is a Trust management for the adoption and growth of cloud computing.

We are attempting to describe the design and implementation of Cloud Armor, a reputation-based trust management framework that provides a set of functionalities to deliver Trust as a Service (TaaS), which includes a novel protocol to prove the credibility of trust feedbacks and preserve users' privacy.

Technical Skill Set:

Programming Languages: C, java
